1 Virtual fault simulation of distributed IP-based designs   80%
Marcello Dalpasso , Alessandro Bogliolo , Luca Benini , Michele Favalli
Proceedings of the conference on Design, automation and test in Europe January
2000

2 Hardware/software IP protection   80%
Marcello Dalpasso , Alessandro Bogliolo , Luca Benini
Proceedings of the 37th conference on Design automation June 2000
Design methodologies based on reuse of intellectual property (IP) components
critically depend on techniques to protect IP ownership. IP protection is particularly
challenging for hardware/software systems, where an IP core runs embedded
software: both the software and the core are valuable IP that must be protected. We
propose a new technique for protecting the IP of both processor cores and application
software in hardware/software systems. Our approach is based on public-key c ...

3 Virtual simulation of distributed IP-based designs   80%
Marcello Dalpasso , Alessandro Bogliolo , Luca Benini
Proceedings of the 36th ACM/IEEE conference on Design automation conference
June 1999
